cnc exhibition stands  
edgebanding

## Retail Display Manufacturer

Our workshop based in Warboys, Cambridgeshire, contains specialist CNC routing and cutting equipment which enables us to make a wide range of precision cut products in large quantities. Strata Panels UK have over 30 years experience in providing creative solutions to a wide customer base in the areas of contract furniture, retail display and exhibition stands.

We specialise in cnc routing, panel fabrication, trespas fabrication, solid laminate fabrication, cutting, bonding, laminating and edge banding.

Our most popular products include the manufacture and supply of :

- school display furniture
- desks
- mdf pedestals
- art display boards and systems
- Klem clamps and connectors
- klemboard lightweight display panels
- nylon loop covered panels
- exhibition stands
- bespoke point of sale products
